**About ITS Training:** The Mississippi Department of Information Technology Services (ITS) Education Services Division offers an ongoing educational program designed to enhance and improve the computer and communication skills of personnel within state government. The training program is called the Eastwood Education Center. The curriculum is structured so that a person with no experience can begin with an introductory course and, if appropriate, progress to highly advanced levels of information processing.

The Eastwood Education Center uses an automated system for course scheduling, registration, permanent records, and student transcripts. This system provides the necessary documentation for state agencies and the students regarding their training accomplishments. Certificates are provided to students upon successful completion of courses.

During Fiscal Year 2016, ITS offered approximately 156 instructor led classes to approximately 741 students, representing numerous state agencies, universities, community colleges, and governing authorities. The curriculum has been expanded as the demand for information systems skills has increased. The Eastwood Education Center provides the necessary education and training to make state personnel more productive at a significantly lower cost than outside training sources.

**Customized Training:** The Eastwood Education Center has the resources to provide instruction in almost any information systems area needed by state government employees. In addition to the regularly scheduled courses, we will design a class to meet your specific training needs. We also provide online training in conjunction with Skillsoft.

***Continuing Education is the Key to Success:***

The future of Mississippi government depends on efficient execution of the services it provides. State budget constraints make it imperative that agencies use information technology effectively to increase personnel productivity. If agencies cannot perform their tasks more efficiently, services which they provide cannot be maintained, much less expanded to meet pressing needs. Continuing education and training are essential for the effective planning, implementation, support, and use of these technological solutions. The ITS Education Services Division offers an excellent means of fulfilling these goals in a cost-effective way.

***Other Services Offered by ITS:***

ITS offers a variety of other services including on-site training assistance and follow-up, system analysis, design, programming, documentation, project management, feasibility studies, long-range planning, procurement, telephone services, and general consulting. If we can be of service to you in any of these areas, please call (601) 432-8000.

## **Expanded Offering of On-Line Live Classes**

The past few years, ITS and Systems IT provided you with Mentored Learning, where a student sat in classes with pre-recorded instruction supplemented by a live Systems IT instructor to answer questions. The only limiting factor was that the local instructor, aka “the mentor,” had to be an expert on the material being delivered in order to mentor you. Finding a local “subject matter expert” in every technology application is virtually impossible.

We now have access to the best instructors from the 300+ Systems ITCenters® around the world to teach all the most popular courses locally in Jackson, Mississippi. For the student it means sitting in a live class where you are signed onto a computer, viewing and listening to a live instructor, asking questions when you desire in real time, and hearing discussions between students who could be in Alabama, North Dakota or Ireland. The student still receives the live instruction everyone wants. For your agency, it means saving the travel expense involved in sending employees to an expensive, faraway city for training. The agency maintains access to its valued employee in case of an emergency. This is a “win-win” situation!

Now, in addition to the traditional instructor-led classes offered through local Systems ITsubject matter experts (Richard, John and Chris), we are able to offer Cisco, Citrix, VMware, high-end Microsoft, Oracle, high-end .net, high-end security, and an abundance of soft skill instruction here in Mississippi through ON-LINE LIVE. Your classmates in these classes are people from around the country that are just like you, with challenges just like yours, doing jobs just like yours. By taking a class with these other people, you will benefit from their questions, participation, and real life experiences.

**The schedule of On-Line Live classes is listed on the following pages.  
PLEASE CALL SUSAN MEEK AT (601) 432-8186 TO SCHEDULE AN ON-LINE LIVE CLASS.**

**ALL ON-LINE LIVE CLASSES BEGIN PROMPTLY AT 8:00 A.M.  
STUDENTS MUST ARRIVE BY 7:45 A.M. IN ORDER TO ALLOW CLASS TO BEGIN ON TIME.**

## QUESTIONS & ANSWERS

### **1. What do I do if I need to cancel a class?**

If you are unable to attend a class for which you have registered, please contact the Eastwood Education Center immediately at (601) 432-8186. Registrants of ITS-conducted classes who cancel within 10 days of the first class meeting will be billed the full tuition. Registrants of vendor-conducted classes who cancel within 30 days of the first class meeting will be billed the full tuition. Substitutions are permissible any time prior to and including the day on which the course begins.

### **2. Why is being on time important?**

Each course topic covered builds on the previous topic. There is a lot of material to be covered in each class, and it is disruptive to the entire class when someone arrives late and the instructor has to catch the late-comer up to rest of the class. For this reason, it is very important that everyone be on time for class.

### **3. What should I wear to class?**

Please dress comfortably. Bring a jacket or sweater, as the room temperature may vary.

If you have further questions, please contact the Eastwood Education Center at (601) 432-8186.

Thank you, and enjoy your training session!
